

optimized for Professional Data Center with high capacity connection and Over IP features.

Integrating a 19" LED screen, keyboard and mouse pad in a 1U rackmountable sliding housing. The short-depth design ultilized for narrow space for short-rack mounting in condensed area. The AL-V908Pi can control up to 8 computers; with 16 additional KVM switches are cascaded and 2 levels of daisy-chain connect, a single AL-V908Pi LCD KVM Switch can control up to 256 computers.

The AL-V908Pi that allows both local and remote operators to monitor and access multiple computers. Remote users access the switches over the Internet by means of a web browser using TCP/IP for its remote communications protocol. This would help administrators manage their server room in an efficient and flexible manner, which would save both money and time for various market segment.
